

Xenics at SPIE BiOS Expo and Photonics West 2023

Leuven, Belgium, 27 January, 2023 – Xenics, part of Photonis group, a Europe’s leading developer and manufacturer in the world of advanced infrared imaging solutions, cameras and customized solutions, will exhibit at BiOS Expo and Photonics West from January 28th to February 2nd.

Xenics will participate at BiOS Expo and Photonics West 2023 in San Francisco. This exhibition, which gathers major world photonics players, will be the first 2023 opportunity to demonstrate Xenics’s cutting-edge cameras:

- With Ceres T 1280, Xenics will show the new standard in uncooled LWIR industrial cameras.
- As a SWIR leader, Xenics will also demonstrate the Wildcat+, the last generation staring array high-performance camera, and Manx, the world’s highest performance line-scan camera.

With its wide portfolio of SWIR sensors and cameras and uncooled LWIR cameras, Xenics thus covers all the IR applications from the low cost to the very demanding highest-grade ones which makes it the one-stop shop for SWIR and LWIR industrial vision.

As the goal of Xenics is to optimize customer experience, all its products are GenICam compliant and compatible Linux SDK is proposed to make Xenics’s product integration straightforward.

The Xenics team is ready to welcome you at their Booth 8273 (BiOS Expo) and Booth 3273 (Photonics West) to help you with SWIR and uncooled LWIR solutions.

About Xenics

Xenics, part of Photonis group, is a pioneer of infrared technology with a proven track record of twenty years. Xenics designs, manufactures and markets infrared imagers, cores and cameras of best-in-class image quality to support machine vision, scientific & advanced research, transportation, process monitoring, safety & security and medical applications. Xenics offers a complete portfolio of line-scan and area-scan products for the vSWIR, SWIR and LWIR ranges. Mastering all critical steps of the manufacturing process with advanced production facilities and in-house know-how on detectors, systems and software development Xenics delivers state-of-the-art solutions and optimized custom designs. Xenics ensures its commitment of doing good to the world by developing solutions for enhancing quality of life and sustainability. As a European vendor with a worldwide sales and service network, Xenics supports its customers with simplified export procedures. More at: xenics.com
